- Labs must be reserved ahead of time at the website [http://reservations.lib.msu.edu](http://reservations.lib.msu.edu)
- Patrons making reservations must arrive within 15 minutes of the reservation start time, or the room will be released and reassigned. You may check in up to 15 minutes early if the room is not in use.
- Each patron may reserve MSU Libraries Collaborative Technology Labs up to 2 hours per day.
- The checkout and checkin point for this lab is the MSU Main Library Circulation Desk.
- Upon checkin, the patron will be issued a binder containing instructions and sometimes additional equipment such as remote controls. These items must be returned immediately by the end of the reservation period. To avoid overdue fines, be sure to return the binder promptly at the end of the reservation period!

Using the SMART Board

The Smart Board will turn on by itself when the projector turns on. Your finger is your mouse and your marker. Activate each tool using the buttons or by picking up the fake markers on the tray at the bottom of the Smart Board.

➤ **To write on the Smart Board:**
Pick up one of the four fake. Write on the board using either your finger or the fake marker. The lines will be the same color as the fake marker. To stop writing, return the marker to its spot in the tray.

➤ **To erase on the Smart Board:**
Pick up the eraser from the tray and wipe it on the Smart Board. To stop erasing, return the eraser to the tray.

➤ **To use a keyboard on the Smartboard display**
- Push the keyboard button located on the tray at the bottom of the Smartboard. A mini keyboard will appear on the screen.
- Touch a place on the screen where you want the cursor to appear, then touch letters on the keyboard.
- This will also work on web browsers and in Microsoft Word when displayed on the Smartboard.
- The “SmartInk” menu will appear at the top of application windows on the PC only (not your connected laptop). From here you can capture and save any markings you’ve made.
