

## MSU Dairy Trivia

**First Dairy Class** – The first dairy class was held in 1893. It was a special two-week course held over winter break.

**G. Malcolm Trout** – Trout became assistant professor of Dairy Husbandry in 1928. He developed a process to homogenize milk, which keeps cream and milk from separating.

**Women's Land Army** – During World War II, when most male students were fighting the war, the women students took over caring for the animals on campus.
